MARINE (SCOTLAND) ACT 2010, PART 4 MARINE LICENSING

LICENCE TO CONSTRUCT, ALTER OR IMPROVE ANY WORKS WITHIN THE SCOTTISH
MARINE AREA

Licence Number: MS-00008483

Reference Number: 00008483

Scottish Ministers (hereinafter referred to as "the licensing authority") hereby authorise:

**Port of Dundee
Port Office
Stannergate Road
Dundee
DD1 3LU**

to construct, alter or improve works as described in Part 1 of the attached Schedule. The licence is subject to the conditions of use set out, or referred to, in Part 2 of the said Schedule.

The licence shall be valid from 28 August 2020 until 30 June 2022.

Signed:

Ellie Noble

For and on behalf of the licensing authority

Date: 28 August 2020

Part 1 - Particulars

1. Name and address of agent acting on behalf of licensee (if appropriate):

Fairhurst
1 Arngrove Court
Barrack Road
Newcastle Upon Tyne
NE4 6DB

2. Location of the works (hereinafter referred to as "the site"):

Port of Dundee, within the area bounded by joining the points:

56° 27.965' N 002° 55.775' W
56° 27.969' N 002° 55.178' W
56° 27.882' N 002° 55.176' W
56° 27.878' N 002° 55.772' W

As shown in Annex One.

3. Description of the works:

Construction of a new quay with associated revetment and infill and strengthening of existing quay as described in application dated 09 April 2020, and correspondence submitted in support of the application.

4. Nature and indicative quantity of materials used below Mean High Water Springs level in the construction, alteration or improvement of the works described in Part 1.3 of the licence :

Materials to be used in construction

2,250 tonnes of steel/iron
3,500 tonnes of concrete
7,640 tonnes of rock armour fill
49,140 tonnes of fill for new revetment

Materials to be removed during construction

1,880 tonnes of steel/iron
38,905 tonnes of gravel and cobbles (existing revetment)

Temporary Materials

To be confirmed.

Part 2 - Conditions

1. The licensee must ensure that only the materials listed in Part 1 of the licence are used in the construction, alteration or improvement of works and that materials used are inert and do not contain toxic elements which may be harmful to the marine environment, the living resources which it supports or human health.
2. The licensee must remove all temporary materials listed in Part 1 of the licence before the expiry date of the licence. **The licence shall not continue in force after the expiry date of 30 June 2022.**
3. The licensee must ensure that any debris or waste materials arising during the course of the works are removed from the site for disposal at an approved location above the tidal level of Mean High Water Springs.
4. The licensee must submit a written report regarding the materials used during the works to the licensing authority. The written report must be submitted on completion of the works and on the forms provided by the licensing authority no later than 31 October 2023.
5. The licensee must notify Source Data Receipt, The Hydrographic Office, Admiralty Way, Taunton, Somerset, TA1 2DN (e-mail: sdr@ukho.gov.uk; tel.: 01823 484444) of both progress and on completion of the works supply a copy of the licence, and wherever possible, 'as built plans', in order that all necessary amendments to nautical publications are made.
6. The licensee must issue local notification to marine users – including fisherman's organisations, neighbouring port authorities and other local stakeholders – to ensure that they are made fully aware of the works.
7. The licensee must ensure that HM Coastguard, in this case nmcccontroller@hmcg.gov.uk, The National Maritime Operations Centre is made aware of the works prior to commencement.
8. The licensee must ensure that a copy of the licence is given to each contractor appointed to carry out part or all of the works in order that they are clear about the extent of 'the works' for which the licence has been granted and the conditions that are attached to the licence.
9. The licensee must complete and submit a Proposed Activity Form in the online Marine Noise Registry for all licensable marine activities that will produce loud, low to medium frequency (10Hz-10kHz) impulsive noise no later than 7 days prior to commencement of the licensable marine activity. If any aspects of the licensable marine activities differ from the Proposed Activity Form in the online Marine Noise Registry, the licensee must complete and submit a new Proposed Activity Form no later than 7 days prior to commencement of the licensable marine activity.
10. The licensee must complete and submit a Close-out Report for the licensable marine activities that produced loud, low to medium frequency (10Hz-10kHz) impulsive noise in the online Marine Noise Registry at 6 month intervals during the validity of the licence.
11. The licensee must ensure appropriate steps are taken to minimise damage to the foreshore, riverbank and seabed by the works.

12. The licensee must ensure the foreshore, riverbank and seabed are returned to the original profile, or as close as reasonably practicable, following the completion of the works.
13. The licensee must ensure the best method of practice is used to minimise re-suspension of sediment during the works.
14. The licensee must ensure suitable bunding and storage facilities are employed to prevent the release of fuel oils, lubricating fluids associated with the plant and equipment into the marine environment.
15. If it is desired to display any marks or lights not required by the licence then details must be submitted to the Northern Lighthouse Board and their ruling complied with. The display of unauthorised marks or lights is prohibited.
16. The licensee must ensure that the works are maintained at all times in good repair.
17. The licensee must ensure that no deviation from the schedule specified in the licence is made without the further written approval of the licensing authority.
18. The licensee must ensure works are only undertaken within the permitted working hours which are Monday to Friday between 0700 hours and 1800 hours and Saturday between 0800 hours and 1300 hours. No works are permitted on Sundays or Public Holidays.
19. The licensee must ensure that the JNCC 2010 protocol for minimising risk of injury to marine mammals from piling noise ("JNCC Piling Protocol") is followed at all times in connection with the undertaking of the works as far as it is practical to do so.
20. The licensee must ensure that when carrying out vibro or impact piling activities Marine Mammal Observers ("MMO") are used at all times.
21. The licensee must ensure that the MMO is trained and dedicated as defined in the JNCC Piling Protocol.
22. The licensee must ensure that a mitigation zone with a radius of 500 metres is utilised by the MMO in accordance with the JNCC Piling Protocol.
23. The licensee must ensure that vibro or impact piling is not carried out in poor or adverse weather or light conditions such that the MMO is unable to observe marine mammals within the 500m mitigation zone.
24. The licensee must ensure that soft start procedures are employed as per section 2.4 of the JNCC Piling Protocol.
25. The licensee must ensure that impact piling is restricted to 4 hours in any 24 hour period.
26. If in the opinion of the licensing authority the assistance of a Government Department, including the broadcast of navigational warnings, is required to deal with any emergency arising from:
 - a) The failure to mark and light the works as required by licence.

- b) The maintenance of the works.
- c) The drifting or wreck of the works.

The licensee shall be liable for any expenses incurred in securing such assistance .

27. In the event of the licensed activities being discontinued the works must be removed and the site cleared to the satisfaction of the licensing authority.
28. The licensee must remove the works from below the level of Mean High Water Springs, or such alterations made, within one month of notice being given by the licensing authority at any time it is considered necessary or advisable for the safety of navigation, and not replaced without further approval of the licensing authority. The licensee shall be liable for any expense incurred.
29. Any person authorised by the licensing authority must be permitted to inspect the works at any reasonable time.
30. The licensee must ensure that copies of the licence are available for inspection by any authorised Enforcement Officer at:
- a) the premises of the licensee;
 - b) the premises of any agent acting on behalf of the licensee; and
 - c) the site of the works.
31. In the event of the licensee becoming aware that any of the information on which the issue of the licence was based has changed, the licensing authority must be immediately notified of the details.

NOTES

1. You are deemed to have satisfied yourself that there are no barriers, legal or otherwise, to the carrying out of the licensed activity. The issue of the licence does not absolve the licensee from obtaining such authorisations, consents etc which may be required under any other legislation.
2. In the event that the licensee wishes any of the particulars set down in the Schedule to be altered, the licensing authority must be immediately notified of the alterations. It should be noted that changes can invalidate a licence, and that an application for a new licence may be necessary.
3. Under Section 30 of the Marine (Scotland) Act 2010, the licensing authority may vary, suspend or revoke the licence, if it appears to the licensing authority that there has been a breach of any of the provisions of the licence or for any other reason that appears to be relevant to the licensing authority.
4. Under Section 39 of the Marine (Scotland) Act 2010, it is an offence to carry on a licensable marine activity or cause or permit any other person to carry on such an activity without a marine licence or fails to comply with any condition of a marine licence. It is a defence for a person charged with an offence under Section 40 in relation to any activity to prove that the activity was carried out for the purpose of saving life, or for the purposes of securing the safety of a vessel, aircraft or marine structure ('*force majeure*'), and that the person took steps within a reasonable time to provide full details of the incident to the licensing authority. (Under Annex II, Article 7 of the Convention for the Protection of the Marine Environment of the North-East Atlantic, the licensing authority is obliged to immediately report '*force majeure*' incidents to the Convention Commission).
5. All correspondence or communications relating to the licence should be addressed to:
